**Portuguese Bilingual Expert (Brazil)**
**Audio & Linguistic Evaluation | Speech Nativeness · Fluency · Prosody**

Email
LinkedIn
Portfolio
São Paulo, Brazil · Remote

Native Brazilian Portuguese language professional with **10+ years of translation, transcription, and linguistic quality experience**, supported by formal training in **Phonetics, Morphology, Syntax, Discourse Analysis, and Comparative Linguistics (EN/PT)** at the University of São Paulo (USP). Skilled in **listening to Portuguese audio and evaluating nativeness, fluency, pronunciation, intonation, and linguistic authenticity** against established guidelines; identifying dialogue-level and pronunciation-related issues that affect meaning, register, tone, and cultural fit; and **documenting clear, concise, evidence-based feedback in English**. Combines audiovisual transcription (**1,000+ hours**) and IPA-based dialect annotation for the **NURC-SP corpus** with hands-on subtitle QC, MTPE review, AI-generated output evaluation, and structured quality workflows. Native Brazilian Portuguese; C1–C2 English.

| | |
|---|---|
| **Native** | BRAZILIAN PORTUGUESE FLUENCY & ENUNCIATION |
| **1,000+** | HOURS OF AUDIO TRANSCRIBED (PT/EN/FR) |
| **IPA** | NURC-SP PHONETIC ANNOTATION |
| **C1–C2** | ENGLISH (WRITTEN & VERBAL) |

## CORE EXPERTISE

### Speech & Audio Evaluation

- Listening to Portuguese audio clips and assessing **nativeness and fluency**
- Evaluating **pronunciation, intonation, prosody, rhythm, and pausing**
- Judging **linguistic authenticity** against established guidelines
- Distinguishing native regional variation from real deviations
- Assessing dialogue-level accuracy and speaker attribution
- Applying rubric-based and evidence-based evaluation

### Brazilian Portuguese Linguistics

- Phonetics, phonology, morphology, syntax, semantics, pragmatics
- Register, tone, style, idiomaticity, and naturalness
- Cultural appropriateness and locale-specific nuance
- Terminology consistency and glossary adherence
- Portuguese ↔ English comparative analysis
- Libras (Brazilian Sign Language) — C1 working proficiency

### Transcription & Documentation

- Audiovisual transcription (PT/EN/FR) with **IPA annotation**
- SDH-compliant subtitling with speaker IDs and non-verbal cues
- Structured rationales and **clear written feedback in English**
- Error categorization and severity assessment
- Timely, accurate completion of audio review tasks
- Collaboration with coordinators to clarify ambiguities

## PROFESSIONAL EXPERIENCE

### Brazilian Portuguese Language Expert — Audiovisual Project

2026–Present

OneVoice / Magnum · Remote contractor

- Support a **Brazilian Portuguese audiovisual language project** in a structured remote workflow, following task specifications, quality criteria, documentation requirements, and escalation procedures.
- Apply **language expertise to audiovisual content**, maintaining accuracy, consistency, and timely task completion against project-specific requirements.

### Freelance Translator, Reviewer & Audiovisual QA Specialist

2015–Present

Vox Mundi · Moshi Media · VSI · Tikinet · Other providers

- Transcribe, translate, and review English-to-Brazilian Portuguese audiovisual content — films, series, documentaries, interviews, and educational material — with **1,000+ hours transcribed** and **10,000+ minutes across translation and QC workflows**.
- Review subtitles against **source audio/video and scripts**, checking meaning, omissions/additions, dialogue accuracy, speaker attribution, timing, segmentation, reading speed, and formatting.
- Assess whether localized dialogue preserves **intent, tone, register, idiomatic expression, and cultural context**; flag unnatural or ambiguous phrasing and provide corrected alternatives.
- Write **concise, actionable feedback**; resolve linguistic queries; follow client-specific guidelines and technical specifications in remote international workflows.
- Transcribe **1,000+ hours** of audiovisual content (PT/EN/FR) across educational, corporate, and institutional material; deliver **300+ hours of SDH-compliant subtitles** with speaker IDs and non-verbal cues.

### Localization QA & AI Language Quality Specialist

2022–Present

Acclaro and multilingual localization workflows · Project-based

- Perform linguistic QA for software/UI, documentation, and audiovisual content against source material, terminology, style guides, and locale requirements.
- **Evaluate AI-generated subtitle outputs**, categorize linguistic defects, assess severity, and provide structured **English-language feedback** for quality-improvement workflows.
- Proposed an **18-category subtitle error taxonomy** with severity levels to replace generic free-text feedback; the framework was adopted by the team.
- Review **MTPE and localized UI content** for accuracy, completeness, terminology, context, naturalness, and user-facing clarity.

### Content Governance & Linguistic QA — Functional Lead Responsibilities

2020–2025

TeamWorker · Enterprise telecommunications content (Claro)

- Led LQA for **15,000+ CRM, chatbot, and marketing assets**, achieving 98% legal and brand compliance.
- Developed comprehensive style guides and a **2,700-term glossary**, standardizing terms across departments and reducing inconsistencies by 65%.
- Trained and mentored **15+ linguists** from junior writers to senior reviewers; evaluated deliverables and provided individual, actionable feedback.
- Designed QA dashboards and content checkers that flagged **95% of issues pre-delivery**, including hallucinations, tone mismatches, and cultural misalignments.
- Supported taxonomy and controlled-vocabulary consistency across a knowledge environment containing 15,000+ content assets.

### Editor, Translator & Transcriptionist

2016–Present

Tikinet Edições Ltda · Academic and institutional content

- Transcribed and adapted **100+ hours of academic lectures** into publishable materials for government clients.
- Translated peer-reviewed journals (PT→EN and EN→PT), ensuring compliance with academic standards (APA/MLA).
- Managed terminology databases to maintain consistency across long-term projects.

### AI Training Data Annotation & Phonetic Contribution

Selected projects

Independent projects · USP NURC-SP corpus

- Annotated **IPA-based dialects for USP's NURC-SP corpus** to support speech training datasets.
- Annotated **dialogue metadata for NLP datasets** (emotion, named entities), improving downstream model accuracy by 20%.
- Contributed structured linguistic labels and rationales for **AI speech and multimodal training pipelines**.

## SELECTED PORTFOLIO DEMONSTRATIONS

### PT-BR Speech Nativeness & Fluency Evaluation

Independent demonstration of a **six-dimension rubric** — nativeness, fluency, pronunciation, intonation/prosody, rhythm/pausing, clarity/context — applied to a PT-BR audio clip, with **evidence-based justifications in English**, explicit handling of regional variation, and clear rules for marking cases as inconclusive. alc-etimo.github.io/micro1/

### PT-BR Audio Transcription & IPA Assessment

Orthographic and IPA transcription of Brazilian Portuguese speech, marking native reductions (*estava → tava*), regional rhotics ([ʁ]), and nasal vowels, with short English notes distinguishing legitimate variation from real deviation — same protocol used for NURC-SP annotation.

### AI-Generated Subtitle Evaluation

Syntactic and semantic auditing to detect hallucinations, contradictory attributes, and broken reference chains in AI-generated subtitles — with severity levels and **English-language justifications**. Caught 92% of hallucinated references in a 500-subtitle pilot.

### Audiovisual Semantic Annotation

Multimodal labels across **actor, character, action, intention, speech, and emotion** — with contextual judgment and clear boundaries between observation and inference.

Portfolio samples are independent demonstrations and are not client deliverables.

## EDUCATION

### B.A. and Teaching Licensure in Portuguese and English Languages and Literatures

2015–2019

University of São Paulo (USP) · FFLCH

Formal coursework in **Phonetics, Phonology, Morphology, Syntax, Semantics, Discourse Analysis, Sociolinguistics, Comparative Linguistics (EN/PT)**, translation studies, and teaching. Teaching Licensure average: 10/10.

### Brazilian Sign Language (Libras) Studies

2016–2018

Pontifical Catholic University of São Paulo (PUC-SP)

Formal study of Libras structure, phonology, and multimodal communication — C1 working proficiency.

### Associate Degree in Information Technology

2007–2009

Marechal Rondon School (FMR)

Computer science fundamentals, programming, database concepts, HTML/CSS, network systems.

## TOOLS & LANGUAGES

**Audio & transcription tools:** YouTube Studio, Amara, Otter.ai, oTranscribe, Audacity, ELAN.
**Subtitling & QC:** Subtitle Edit, EZTitles, Aegisub, Ooona.
**Translation & terminology:** Trados Studio, memoQ, Smartcat, Phrase/Memsource, Xbench, Verifika.
**Data & formats:** Microsoft Excel, Google Workspace; HTML, XML, JSON, CSV, SRT, IPA.

**Languages:**
Brazilian Portuguese — **Native** (clear enunciation, natural fluency)
English — **C1–C2** (full working proficiency, written & verbal)
French — **B2** (working proficiency)
Spanish — **B1** (limited working proficiency)
Libras — **C1** (full working proficiency)

Independent demonstrations; confidential client material is not reproduced. Available for remote contract work · 7am–4pm PST.
